About Us

DEF is primarily used in BS4 & BS6 Euro Diesel engines, vehicles with SCR system

ISO 22241-1:2019 & ISO 22241-2:2019 Certified

ISO 9001:2015 Certified Company

Qblue Fluid is a **Diesel Exhaust Fluid (DEF)**, an **Aqueous Urea Solution (AUS32)**.

It is standardised as AUS 32 (Aqueous Urea Solution) in ISO 22241. DEF is used as a consumable in selective catalytic reduction (SCR) in order to lower NOx concentration in the diesel exhaust emissions from diesel engines.

**WHAT
MAKES
QBLUE
SPECIAL?**

01

The First Reason

Raw material procurement cycle starts from Mitsumi Chemicals, Japan & GNFC then goes to Hanwa Co Japan. This is where we get our Raw Materials, from the world's top companies.

02

The Second Reason

Premium Quality Diesel Exhaust Fluid (DEF). Qblue Fluids gives you a most transparent viscous DEF which superior without any suspended particulate impurities due to the usage of top quality raw materials.

03

The Third Reason

We also have cutting edge machinery plant for manufacturing DEF. This further gives tight control over quality control.

04

The Fourth Reason

We are certified with the following standard. We does raise the bar of DEF.

ISO 22241-1:2019 & ISO 22241-2:2019
